

The Portable Hannah Arendt

Recognizing the quirk ways to acquire this book The Portable Hannah Arendt is additionally useful. You have remained in right site to start getting this info. get the The Portable Hannah Arendt associate that we find the money for here and check out the link.

You could buy guide The Portable Hannah Arendt or acquire it as soon as feasible. You could speedily download this The Portable Hannah Arendt after getting deal. So, later than you require the book swiftly, you can straight get it. Its suitably entirely easy and so fats, isnt it? You have to favor to in this way of being

Between Past and Future Hannah Arendt 2006-09-26 From the author of Eichmann in Jerusalem and The Origins of Totalitarianism, "a book to think with through the political impasses and cultural confusions of our day" (Harper's Magazine) Hannah Arendt's insightful observations of the modern world, based on a profound knowledge of the past, constitute an impassioned contribution to political philosophy. In Between Past and Future Arendt describes the perplexing crises modern society faces as a result of the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, and glory. Through a series of eight exercises, she shows how we can redistill the vital essence of these concepts and use them to regain a frame of reference for the future. To participate in these exercises is to associate, in action, with one of the most original and fruitful minds of the twentieth century.

The Portable Kristeva Julia Kristeva 2002-05-29 As a linguist, Julia Kristeva has pioneered a revolutionary theory of the sign in its relation to social and political emancipation; as a practicing psychoanalyst, she has produced work on the nature of the human subject and sexuality, and on the "new maladies" of today's neurotic. The Portable Kristeva is the only fully comprehensive compilation of Kristeva's key writings. The second edition includes added material from Kristeva's most important works of the past five years, including The Sense and Non-Sense of Revolt, Intimate Revolt, and Hannah Arendt. Editor Kelly Oliver has also added new material to the introduction, summarizing Kristeva's latest intellectual endeavors and updating the bibliography.

The Portable Hannah Arendt Hannah Arendt 2003-07-29 A collection of writings by a groundbreaking political thinker, including excerpts from The Origins of Totalitarianism and Eichmann in Jerusalem She was a Jew born in Germany in the early twentieth century, and she studied with the greatest German minds of her day—Martin Heidegger and Karl Jaspers among them. After the rise of the Nazis, she emigrated to America where she proceeded to write some of the most searching, hard-hitting reflections on the agonizing issues of the time: totalitarianism in both Nazi and Stalinist garb; Zionism and the legacy of the Holocaust; federally mandated school desegregation and civil rights in the United States; and the nature of evil. The Portable Hannah Arendt offers substantial excerpts from the three works that ensured her international and enduring

stature: *The Origins of Totalitarianism, The Human Condition, and Eichmann in Jerusalem*. Additionally, this volume includes several other provocative essays, as well as her correspondence with other influential figures.

The Cambridge Companion to Hannah Arendt Dana Villa 2000-11-30 A distinguished team of contributors examines the primary themes of Arendt's multi-faceted thought.

Hannah Arendt Samantha Rose Hill 2021-08-16 Hannah Arendt is one of the most renowned political thinkers of the twentieth century, and her work has never been more relevant than it is today. Born in Germany in 1906, Arendt published her first book at the age of twenty-three, before turning away from the world of academic philosophy to reckon with the rise of the Third Reich. After World War II, Arendt became one of the most prominent—and controversial—public intellectuals of her time, publishing influential works such as *The Origins of Totalitarianism, The Human Condition, and Eichmann in Jerusalem*. Samantha Rose Hill weaves together new biographical detail, archival documents, poems, and correspondence to reveal a woman whose passion for the life of the mind was nourished by her love of the world.

The Anthem Companion to Hannah Arendt Peter Baehr 2017-01-02 *The Anthem Companion to Hannah Arendt* offers a unique collection of essays on one of the twentieth century's greatest thinkers. The companion encompasses Arendt's most salient arguments and major works – *The Origins of Totalitarianism, The Human Condition, Eichmann in Jerusalem, On Revolution and The Life of the Mind*. The volume also examines Arendt's intellectual relationships with Max Weber, Karl Mannheim and other key social scientists. Although written principally for students new to Arendt's work, *The Anthem Companion to Hannah Arendt* also engages the most avid Arendt scholar.

Hannah Arendt Phillip Hansen 2013-04-30 The new study provides a fresh and timely reassessment of the political philosophy of Hannah Arendt. While analysing the central themes of Arendt's work, Phillip Hansen also shows that her work makes a significant contribution to contemporary debates. Specifically, Hansen argues that Arendt provides a powerful account of what it means to think and act politically. This account can establish the grounds for a contemporary citizen rationality in the face of threat to a genuine politics. Among other issues, Hansen discusses Arendt's conception of history and historical action; her account of politics and of the distinction between public and private; her analysis of totalitarianism as the most ominous form of 'false ' politics; and her treatment of revolution. The book is a balanced and opportune reappraisal of Arendt's contributions to social and political theory. It will be welcomed by students and scholars in politics, sociology and philosophy.

Responsibility and Judgment Hannah Arendt 2009-04-02 Each of the books that Hannah Arendt published in her lifetime was unique, and to this day each continues to provoke fresh thought and interpretations. This was never more true than for *Eichmann in Jerusalem*, her account of the trial of Adolf Eichmann, where she first used the phrase "the banality of evil." Her consternation over how a man who was neither a monster nor a demon could nevertheless be an agent of the most extreme evil evoked derision, outrage, and misunderstanding. The firestorm of controversy prompted Arendt to readdress fundamental questions and concerns about the nature of evil and the making of moral choices. *Responsibility and Judgment* gathers together unpublished writings from the last decade of Arendt's life, as she struggled to explicate the meaning of *Eichmann in Jerusalem*. At the heart of this book is a profound ethical investigation,

“Some Questions of Moral Philosophy”; in it Arendt confronts the inadequacy of traditional moral “truths” as standards to judge what we are capable of doing, and she examines anew our ability to distinguish good from evil and right from wrong. We see how Arendt comes to understand that alongside the radical evil she had addressed in earlier analyses of totalitarianism, there exists a more pernicious evil, independent of political ideology, whose execution is limitless when the perpetrator feels no remorse and can forget his acts as soon as they are committed. Responsibility and Judgment is an essential work for understanding Arendt’s conception of morality; it is also an indispensable investigation into some of the most troubling and important issues of our time.

The Phenomenology of Man and of the Human Condition Anna-Teresa Tymieniecka
2012-12-06

Why Read Hannah Arendt Now? Richard J. Bernstein 2018-06-11 Recently there has been an extraordinary international revival of interest in Hannah Arendt. She was extremely perceptive about the dark tendencies in contemporary life that continue to plague us. She developed a concept of politics and public freedom that serves as a critical standard for judging what is wrong with politics today. Richard J. Bernstein argues that Arendt should be read today because her penetrating insights help us to think about both the darkness of our times and the sources of illumination. He explores her thinking about statelessness and refugees; the right to have rights; her critique of Zionism; the meaning of the banality of evil; the complex relations between truth, lying, power, and violence; the tradition of the revolutionary spirit; and the urgent need for each of us to assume responsibility for our political lives. This short and very readable book will be of great interest to anyone who wants to understand the forces that are shaping our world today.

Eichmann in Jerusalem Hannah Arendt 2006-09-22 The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt’s authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt’s postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

Committed Writings Albert Camus 2020-08-04 The Nobel Prize winner’s most influential and enduring political writings, newly curated and introduced by acclaimed Camus scholar Alice Kaplan. Albert Camus (1913-1960) is unsurpassed among writers for a body of work that animates the wonder and absurdity of existence. *Committed Writings* brings together, for the first time, thematically-linked essays from across Camus’s writing career that reflect the scope of his political thought. This pivotal collection embodies Camus’s radical and unwavering commitment to upholding human rights, resisting fascism, and creating art in the service of justice.

Hannah Arendt Margaret Canovan 1994-06-24 A reinterpretation of the political thought of Hannah Arendt, strengthening Arendt’s claim to be regarded as one of the most significant political thinkers of the twentieth century.

Crises of the Republic Hannah Arendt 1972 In this stimulating collection of studies, Dr.

Arendt, from the standpoint of a political philosopher, views the crises of the 1960s and early '70s as challenges to the American form of government. The book begins with "Lying in Politics," a penetrating analysis of the Pentagon Papers that deals with the role of image-making and public relations in politics. "Civil Disobedience" examines the various opposition movements from the Freedom Riders to the war resisters and the segregationists. "Thoughts on Politics and Revolution," cast in the form of an interview, contains a commentary to the author's theses in "On Violence." Through the connected essays, Dr. Arendt examines, defines, and clarifies the concerns of the American citizen of the time.--From publisher description.

The Book of Dead Philosophers Simon Critchley 2008 Diogenes died by holding his breath. Plato allegedly died of a lice infestation. Diderot choked to death on an apricot. Nietzsche made a long, soft-brained and dribbling descent into oblivion after kissing a horse in Turin. From the self-mocking haikus of Zen masters on their deathbeds to the last words (gasps) of modern-day sages, The Book of Dead Philosophers chronicles the deaths of almost 200 philosophers--tales of weirdness, madness, suicide, murder, pathos and bad luck. In this elegant and amusing book, Simon Critchley argues that the question of what constitutes a 'good death' has been the central preoccupation of philosophy since ancient times. As he brilliantly demonstrates, looking at what the great thinkers have said about death inspires a life-affirming enquiry into the meaning and possibility of human happiness. In learning how to die, we learn how to live.

Hannah Arendt: A Critical Introduction Finn Bowring 2014-07-25 Hannah Arendt is one of the most famous political theorists of the twentieth century, yet in the social sciences her work has rarely been given the attention it deserves. This careful and comprehensive study introduces Arendt to a wider audience. Finn Bowring shows how Arendt's writings have engaged with and influenced prominent figures in the sociological canon, and how her ideas may shed light on some of the most pressing social and political problems of today. He explores her critique of Marx, her relationship to Weber, the influence of her work on Habermas and the parallels and discrepancies between her and Foucault. This is a clearly written and scholarly text which surveys the leading debates over Arendt's work, including discussions of totalitarianism, the public sphere and the nature of political responsibility. This book will bring new perspectives to students and lecturers in sociology and politics.

Caesar and the Fading of the Roman World Peter Baehr 2017-11-30 For many centuries, Julius Caesar was a name that evoked strong feelings among educated people. Some of these responses were complimentary, but others came from the point of view of "political republicanism"—which envisaged Caesar as a historical symbol for some of the most dangerous tendencies a polity could experience. Caesar represented everything that republicans detested—corruption, demagoguery, usurpation—and as such, provided an antimodel against which genuine political virtue could be measured. Caesar and the Fading of the Roman World examines the reception of Caesar in republican thought until the late eighteenth century and his transformation in the nineteenth, when he enjoyed a major rehabilitation in the literary culture and historiography of the day. Critical of hereditary monarchy and emphasizing the collective political obligations citizens owed to their city or commonwealth, republican thinkers sought to cultivate institutions and mores best adapted to self-governing liberty. The republican idiom became an integral element in the discourse of the American revolutionaries and constitution builders during the eighteenth century, and of

their counterparts in France. In the nineteenth century, Caesar enjoyed a major rehabilitation; from being a pariah, he was elevated in the writings of people like Byron, De Quincey, Mommsen, Froude, and Nietzsche to the greatest statesman of his age. Simultaneously, Caesar's name continued to function as a term of polemic in the emergence of a new debate on what came to be called "Caesarism." While the metamorphosis of Caesar's reputation is studied here as a process in its own right, it is also meant to highlight the increasing enfeeblement of the republican tradition. The transformation of Caesar's image is a sure sign of changes within the wider present-day political culture and evidence of the emergence of new problems and challenges. Drawing on history, political theory, and sociology, *Caesar and the Fading of the Roman World* uses the image of Caesar as a way of interpreting broader political and cultural tendencies. Peter Baehr discusses the significance of living not in a postmodern society, but in a postclassical one in which ideas of political obligation have become increasingly emaciated and in which the theoretical resources for the care of our public world have become correspondingly scarce. This volume is an important study that will be of value to sociologists, political theorists, and historians.

Hannah Arendt, Totalitarianism, and the Social Sciences Peter Baehr 2010-03-11 This book examines the nature of totalitarianism as interpreted by some of the finest minds of the twentieth century. It focuses on Hannah Arendt's claim that totalitarianism was an entirely unprecedented regime and that the social sciences had integrally misconstrued it. A sociologist who is a critical admirer of Arendt, Baehr looks sympathetically at Arendt's objections to social science and shows that her complaints were in many respects justified. Avoiding broad disciplinary endorsements or dismissals, Baehr reconstructs the theoretical and political stakes of Arendt's encounters with prominent social scientists such as David Riesman, Raymond Aron, and Jules Monnerot. In presenting the first systematic appraisal of Arendt's critique of the social sciences, Baehr examines what it means to see an event as unprecedented. Furthermore, he adapts Arendt and Aron's philosophies to shed light on modern Islamist terrorism and to ask whether it should be categorized alongside Stalinism and National Socialism as totalitarian.

Three Women in Dark Times Sylvie Courtine-Denamy 2000 Three women, all philosophers, all of Jewish descent, provide a human face for a decade of crisis in this powerful and moving book. The dark years when the Nazis rose to power are here seen through the lives of Edith Stein, a disciple of Husserl and author of *La science et la croix*, who died in Auschwitz in 1942; Hannah Arendt, pupil of Heidegger and Jaspers and author of *Eichmann in Jerusalem*, who unhesitatingly responded to Hitler by making a personal commitment to Zionism; and Simone Weil, a student of Alain and author of *La pesanteur et la grâce*. Following her subjects from 1933 to 1943, Sylvie Courtine-Denamy recounts how these three great philosophers of the twentieth century endeavored with profound moral commitment to address the issues confronting them. Condemned to exile, they not only sought to understand a horrible reality, but also attempted to make peace with it. To do so, Edith Stein and Simone Weil encouraged a stoic acceptance of necessity while Hannah Arendt argued for the capacity for renewal and the need to fight against the banality of evil. Courtine-Denamy also describes how as a student each woman caught the eye of her famous male teacher, yet dared to criticize and go beyond him. She explores each one's sense of her femininity, her position on the "woman question," and her relation to her Jewishness. "All three," the

author writes, "are compelling figures who move us with their fierce desire to understand a world out of joint, reconcile it with itself, and, despite everything, love it." Hannah Arendt and the Limits of Total Domination Michal Aharony 2015-03-05 Responding to the increasingly influential role of Hannah Arendt's political philosophy in recent years, *Hannah Arendt and the Limits of Total Domination: The Holocaust, Plurality, and Resistance*, critically engages with Arendt's understanding of totalitarianism. According to Arendt, the main goal of totalitarianism was total domination; namely, the virtual eradication of human legality, morality, individuality, and plurality. This attempt, in her view, was most fully realized in the concentration camps, which served as the major "laboratories" for the regime. While Arendt focused on the perpetrators' logic and drive, Michal Aharony examines the perspectives and experiences of the victims and their ability to resist such an experiment. The first book-length study to juxtapose Arendt's concept of total domination with actual testimonies of Holocaust survivors, this book calls for methodological pluralism and the integration of the voices and narratives of the actors in the construction of political concepts and theoretical systems. To achieve this, Aharony engages with both well-known and non-canonical intellectuals and writers who survived Auschwitz and Buchenwald concentration camps. Additionally, she analyzes the oral testimonies of survivors who are largely unknown, drawing from interviews conducted in Israel and in the U.S., as well as from videotaped interviews from archives around the world. Revealing various manifestations of unarmed resistance in the camps, this study demonstrates the persistence of morality and free agency even under the most extreme and dehumanizing conditions, while cautiously suggesting that absolute domination is never as absolute as it claims or wishes to be. Scholars of political philosophy, political science, history, and Holocaust studies will find this an original and compelling book. *Essays in Understanding, 1930-1954* Hannah Arendt 2011-04-13 Few thinkers have addressed the political horrors and ethical complexities of the twentieth century with the insight and passionate intellectual integrity of Hannah Arendt. She was irresistibly drawn to the activity of understanding, in an effort to endow historic, political, and cultural events with meaning. *Essays in Understanding* assembles many of Arendt's writings from the 1930s, 1940s, and into the 1950s. Included here are illuminating discussions of St. Augustine, existentialism, Kafka, and Kierkegaard: relatively early examinations of Nazism, responsibility and guilt, and the place of religion in the modern world; and her later investigations into the nature of totalitarianism that Arendt set down after *The Origins of Totalitarianism* was published in 1951. The body of work gathered in this volume gives us a remarkable portrait of Arendt's developments as a thinker—and confirms why her ideas and judgments remain as provocative and seminal today as they were when she first set them down.

On Love and Tyranny Ann Heberlein 2021-01-05 In an utterly unique approach to biography, *On Love and Tyranny* traces the life and work of the iconic German Jewish intellectual Hannah Arendt, whose political philosophy and understandings of evil, totalitarianism, love, and exile prove essential amid the rise of the refugee crisis and authoritarian regimes around the world. What can we learn from the iconic political thinker Hannah Arendt? Well, the short answer may be: to love the world so much that we think change is possible. The life of Hannah Arendt spans a crucial chapter in the history of the Western world, a period that witnessed the rise of the Nazi regime and the crises of the Cold War, a time when our ideas about humanity and its value, its guilt

and responsibility, were formulated. Arendt's thinking is intimately entwined with her life and the concrete experiences she drew from her encounters with evil, but also from love, exile, statelessness, and longing. This strikingly original work moves from political themes that wholly consume us today, such as the ways in which democracies can so easily become totalitarian states; to the deeply personal, in intimate recollections of Arendt's famous lovers and friends, including Heidegger, Benjamin, de Beauvoir, and Sartre; and to wider moral deconstructions of what it means to be human and what it means to be humane. *On Love and Tyranny* brings to life a Hannah Arendt for our days, a timeless intellectual whose investigations into the nature of evil and of love are eerily and urgently relevant half a century later.

Why Arendt Matters Elisabeth Young-Bruehl 2008-10-01 Upon publication of her 'field manual,' *The Origins of Totalitarianism*, in 1951, Hannah Arendt immediately gained recognition as a major political analyst. Over the next twenty-five years, she wrote ten more books and developed a set of ideas that profoundly influenced the way America and Europe addressed the central questions and dilemmas of World War II. In this concise book, Elisabeth Young-Bruehl introduces her mentor's work to twenty-first-century readers. Arendt's ideas, as much today as in her own lifetime, illuminate those issues that perplex us, such as totalitarianism, terrorism, globalization, war, and 'radical evil.' Elisabeth Young-Bruehl, who was Arendt's doctoral student in the early 1970s and who wrote the definitive biography of her mentor in 1982, now revisits Arendt's major works and seminal ideas. Young-Bruehl considers what Arendt's analysis of the totalitarianism of Nazi Germany and the Stalinist Soviet Union can teach us about our own times, and how her revolutionary understanding of political action is connected to forgiveness and making promises for the future. The author also discusses *The Life of the Mind*, Arendt's unfinished meditation on how to think about thinking. Placed in the context of today's political landscape, Arendt's ideas take on a new immediacy and importance. They require our attention, Young-Bruehl shows, and continue to bring fresh truths to light.

Hannah Arendt Elisabeth Young-Bruehl 2004-01-01 This highly acclaimed, prize-winning biography of one of the foremost political philosophers of the twentieth century is here reissued in a trade paperback edition for a new generation of readers. In a new preface the author offers an account of writings by and about Arendt that have appeared since the book's 1982 publication, providing a reassessment of her subject's life and achievement. Praise for the earlier edition: "Both a personal and an intellectual biography . . . It represents biography at its best."—Peter Berger, front page, *The New York Times Book Review* "A story of surprising drama At last, we can see Arendt whole."—Jim Miller, *Newsweek* "Indispensable to anyone interested in the life, the thought, or . . . the example of Hannah Arendt."—Mark Feeney, *Boston Globe* "An adventure story that moves from pre-Nazi Germany to fame in the United States, and . . . a study of the influences that shaped a sharp political awareness."—Richmond (Va.) *Times-Dispatch* Cover drawing by David Schorr

Hannah Arendt in Jerusalem Steven E. Aschheim 2001-08 "It is impressive to see an edited collection in which such a high intellectual standard is maintained throughout... I learned things from almost every one of these chapters."—Craig Calhoun, author of *Critical Social Theory*

The Jewish Writings Hannah Arendt 2009-03-12 Although Hannah Arendt is not primarily known as a Jewish thinker, she probably wrote more about Jewish issues than

any other topic. When she was in her mid-twenties and still living in Germany, Arendt wrote about the history of German Jews as a people living in a land that was not their own. In 1933, at the age of twenty-six, she fled to France, where she helped to arrange for German and eastern European Jewish youth to quit Europe and become pioneers in Palestine. During her years in Paris, Arendt's principal concern was with the transformation of antisemitism from a social prejudice to a political policy, which would culminate in the Nazi "final solution" to the Jewish question—the physical destruction of European Jewry. After France fell at the beginning of World War II, Arendt escaped from an internment camp in Gurs and made her way to the United States. Almost immediately upon her arrival in New York she wrote one article after another calling for a Jewish army to fight the Nazis, and for a new approach to Jewish political thinking. After the war, her attention was focused on the creation of a Jewish homeland in a binational (Arab-Jewish) state of Israel. Although Arendt's thoughts eventually turned more to the meaning of human freedom and its inseparability from political life, her original conception of political freedom cannot be fully grasped apart from her experience as a Jew. In 1961 she attended Adolf Eichmann's trial in Jerusalem. Her report on that trial, *Eichmann in Jerusalem*, provoked an immense controversy, which culminated in her virtual excommunication from the worldwide Jewish community. Today that controversy is the subject of serious re-evaluation, especially among younger people in America, Europe, and Israel. The publication of *The Jewish Writings*—much of which has never appeared before—traces Arendt's life and thought as a Jew. It will put an end to any doubts about the centrality, from beginning to end, of Arendt's Jewish experience.

The Portable Hannah Arendt Hannah Arendt 2003-07-29 A collection of writings by a groundbreaking political thinker, including excerpts from *The Origins of Totalitarianism* and *Eichmann in Jerusalem*. She was a Jew born in Germany in the early twentieth century, and she studied with the greatest German minds of her day—Martin Heidegger and Karl Jaspers among them. After the rise of the Nazis, she emigrated to America where she proceeded to write some of the most searching, hard-hitting reflections on the agonizing issues of the time: totalitarianism in both Nazi and Stalinist garb; Zionism and the legacy of the Holocaust; federally mandated school desegregation and civil rights in the United States; and the nature of evil. *The Portable Hannah Arendt* offers substantial excerpts from the three works that ensured her international and enduring stature: *The Origins of Totalitarianism*, *The Human Condition*, and *Eichmann in Jerusalem*. Additionally, this volume includes several other provocative essays, as well as her correspondence with other influential figures.

The Promise of Politics Hannah Arendt 2009-01-16 After the publication of *The Origins of Totalitarianism* in 1951, Hannah Arendt undertook an investigation of Marxism, a subject that she had deliberately left out of her earlier work. Her inquiry into Marx's philosophy led her to a critical examination of the entire tradition of Western political thought, from its origins in Plato and Aristotle to its culmination and conclusion in Marx. *The Promise of Politics* tells how Arendt came to understand the failure of that tradition to account for human action. From the time that Socrates was condemned to death by his fellow citizens, Arendt finds that philosophers have followed Plato in constructing political theories at the expense of political experiences, including the pre-philosophic Greek experience of beginning, the Roman experience of founding, and the Christian experience of forgiving. It is a fascinating, subtle, and original story, which bridges

Arendt's work from *The Origins of Totalitarianism* to *The Human Condition*, published in 1958. These writings, which deal with the conflict between philosophy and politics, have never before been gathered and published. The final and longer section of *The Promise of Politics*, titled "Introduction into Politics," was written in German and is published here for the first time in English. This remarkable meditation on the modern prejudice against politics asks whether politics has any meaning at all anymore. Although written in the latter half of the 1950s, what Arendt says about the relation of politics to human freedom could hardly have greater relevance for our own time. When politics is considered as a means to an end that lies outside of itself, when force is used to "create" freedom, political principles vanish from the face of the earth. For Arendt, politics has no "end"; instead, it has at times been—and perhaps can be again—the never-ending endeavor of the great plurality of human beings to live together and share the earth in mutually guaranteed freedom. That is the promise of politics.

Hannah Arendt: The Last Interview Hannah Arendt 2013-12-03 Arendt was one of the most important thinkers of her time, famous for her idea of "the banality of evil" which continues to provoke debate. This collection provides new and startling insight into Arendt's thoughts about Watergate and the nature of American politics, about totalitarianism and history, and her own experiences as an émigré. *Hannah Arendt: The Last Interview and Other Conversations* is an extraordinary portrait of one of the twentieth century's boldest and most original thinkers. As well as Arendt's last interview with French journalist Roger Errera, the volume features an important interview from the early 60s with German journalist Gunter Gaus, in which the two discuss Arendt's childhood and her escape from Europe, and a conversation with acclaimed historian of the Nazi period, Joachim Fest, as well as other exchanges. These interviews show Arendt in vigorous intellectual form, taking up the issues of her day with energy and wit. She offers comments on the nature of American politics, on Watergate and the Pentagon Papers, on Israel; remembers her youth and her early experience of anti-Semitism, and then the swift rise of the Hitler; debates questions of state power and discusses her own processes of thinking and writing. Hers is an intelligence that never rests, that demands always of her interlocutors, and her readers, that they think critically. As she puts it in her last interview, just six months before her death at the age of 69, "there are no dangerous thoughts, for the simple reason that thinking itself is such a dangerous enterprise."

Love and Saint Augustine Hannah Arendt 2014-12-10 The brilliant thinker who taught us about the banality of evil explores another brilliant thinker and his concept of love. Hannah Arendt, the author of *The Origins of Totalitarianism* and *The Human Condition*, began her scholarly career with an exploration of Saint Augustine's concept of *caritas*, or neighborly love, written under the direction of Karl Jaspers and the influence of Martin Heidegger. After her German academic life came to a halt in 1933, Arendt carried her dissertation into exile in France, and years later took the same battered and stained copy to New York. During the late 1950s and early 1960s, as she was completing or reworking her most influential studies of political life, Arendt was simultaneously annotating and revising her dissertation on Augustine, amplifying its argument with terms and concepts she was using in her political works of the same period. The dissertation became a bridge over which Arendt traveled back and forth between 1929 Heidelberg and 1960s New York, carrying with her Augustine's question about the possibility of social life in an age of rapid political and moral change. In *Love*

and Saint Augustine, political science professor Joanna Vecchiarelli Scott and philosophy professor Judith Chelius Stark make this important early work accessible for the first time. Here is a completely corrected and revised English translation that incorporates Arendt's own substantial revisions and provides additional notes based on letters, contracts, and other documents as well as the recollections of Arendt's friends and colleagues during her later years. "Both the dissertation and the accompanying essay are accessible to informed lay readers. Scott and Stark's conclusions about the cohesive evolution of Arendt's thought are compelling but leave room for continuing discussion."—Library Journal "A revelation."—Kirkus Reviews

Lectures on Kant's Political Philosophy Hannah Arendt 2014-12-10 Hannah Arendt's last philosophical work was an intended three-part project entitled *The Life of the Mind*. Unfortunately, Arendt lived to complete only the first two parts, *Thinking and Willing*. Of the third, *Judging*, only the title page, with epigraphs from Cato and Goethe, was found after her death. As the titles suggest, Arendt conceived of her work as roughly parallel to the three Critiques of Immanuel Kant. In fact, while she began work on *The Life of the Mind*, Arendt lectured on "Kant's Political Philosophy," using the Critique of Judgment as her main text. The present volume brings Arendt's notes for these lectures together with other of her texts on the topic of judging and provides important clues to the likely direction of Arendt's thinking in this area.

The Banality of Evil Bernard J. Bergen 2000-01-01 This highly original book is the first to explore the political and philosophical consequences of Hannah Arendt's concept of 'the banality of evil,' a term she used to describe Adolph Eichmann, architect of the Nazi 'final solution.' According to Bernard J. Bergen, the questions that preoccupied Arendt were the meaning and significance of the Nazi genocide to our modern times. As Bergen describes Arendt's struggle to understand 'the banality of evil,' he shows how Arendt redefined the meaning of our most treasured political concepts and principles—freedom, society, identity, truth, equality, and reason—in light of the horrific events of the Holocaust. Arendt concluded that the banality of evil results from the failure of human beings to fully experience our common human characteristics—thought, will, and judgment—and that the exercise and expression of these attributes is the only chance we have to prevent a recurrence of the kind of terrible evil perpetrated by the Nazis.

Men in Dark Times Hannah Arendt 1968 Collection of essays which present portraits of individuals ranging from Rosa Luxemburg to Pope John XXIII who the author believes have illuminated "dark times"

Rahel Varnhagen Hannah Arendt 2000 Born in 1771, the daughter of a Jewish merchant, Rahel Varnhagen would come to host one of the most prominent salons of the late 18th and early 19th centuries. This book portrays her as a woman who met and corresponded with some of the most celebrated figures of her time.

The Portable Hannah Arendt Hannah Arendt 2000 'Substantial' excerpts from three main works: *The origins of totalitarianism*, *The human condition*, and *Eichmann in Jerusalem* as well as essays and correspondence.

Eichmann in Jerusalem Hannah Arendt 1970

The Portable Hannah Arendt Hannah Arendt 2012

Politics in Dark Times Seyla Benhabib 2010-10-25 This outstanding collection of essays explores Hannah Arendt's thought against the background of recent world-political events unfolding since September 11, 2001, and engages in a contentious

dialogue with one of the greatest political thinkers of the past century, with the conviction that she remains one of our contemporaries. Themes such as moral and political equality, action, judgment and freedom are re-evaluated with fresh insights by a group of thinkers who are themselves well known for their original contributions to political thought. Other essays focus on novel and little-discussed themes in the literature by highlighting Arendt's views of sovereignty, international law and genocide, nuclear weapons and revolutions, imperialism and Eurocentrism, and her contrasting images of Europe and America. Each essay displays not only superb Arendt scholarship but also stylistic flair and analytical tenacity.

The Portable Machiavelli Niccolo Machiavelli 1498-01-25 In the four and a half centuries since Machiavelli's death, no single and unanimously accepted interpretation of his ideas has succeeded in imposing itself upon the lively debate over the meaning of his works. Yet there has never been any doubt about the fundamental importance of Machiavelli's contribution to Western political theory. The Portable Machiavelli brings together the complete texts of *The Prince*, *Belfagor*, and *Castruccio Castracani*, newly translated by Peter Bondanella and Mark Musa especially for this volume. In addition, the editors include an abridged version of *The Discourses*; a play, *The Mandrake Root*, in its entirety; seven private letters; and selections from *The Art of War* and *The History of Florence*.
