Handbook of Research on the Role of Human Factors in IT Project Management Misra, Sanjay 2019-09-27 The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects.

Programming Methodology David Gries 2012-12-06 This volume is being published for two reasons. The first is to present a collection of previously published articles on the subject of programming methodology that have helped define the field and give it direction. It is hoped that the scientist in the field will find the volume useful as a reference, while the scientist in neighboring fields will find it useful in seriously acquainting himself with important ideas in programming methodology. The advanced student can also study it-either in a course or by himself -in order to learn significant material that may not appear in texts for some time. The second reason for this volume is to make public the nature and work on programming methodology of IFIP Working Group 2.3, hereafter called WG2.3. (IFIP stands for International Federation for Information Processing.) WG2.3 is one of many IFIP Working Groups that have been established to provide

international forums for discussion of ideas in various areas. Generally, these groups publish proceedings of some of their meetings and occasionally they sponsor a larger conference that persons outside a group can attend. WG2.3 has been something of a maverick in this respect. From the beginning the group has shunned paperwork, reports, meetings, and the like. This has meant less publicity for IFIP and WG2.3, but on the other hand it has meant that meetings could be devoted almost wholly to scientific discussions.

A Survey of Examination Blessing Adegoke 2013-09 Scientific Study from the year 2010 in the subject Pedagogy - Job Education, Occupational Training, Further Education, grade: 1.0, Bowen University, language: English, abstract: This research was carried out to investigate examination malpractice among secondary school students in Mushin Local Government area in Lagos State. The project highlights the causes of examination malpractice among secondary school students, the effect of examination malpractice and solution to examination malpractice in secondary schools. In this research work, a sample of twenty (20) teachers and one hundred (100) students were collected by means of simple random sampling techniques from five secondary schools in Mushin Local Government. The research instrument used for the study was the teacher's and student's perception questionnaire which was validated by the supervisor and used for the collection of data from the respondents. The data collected from respondents were analyzed with distribution tables and simple percentage. At the end of the analysis the study revealed the major reasons for examination malpractice which include parental pressure for good grades, value attached to certificate and so on. The study further recommend that parent should not put pressure on their children for good grades. Also emphasis should not be lay on certificates.

The Crawling Giant Luke Onyekakeyah 2013-08-09 The Nigerian condition has been the subject of conversation among writers, policymakers, and market men and women. There is no where the

subject is not broached or discussed and often solutions are proffered, from the rational to the mundane. This is to be applauded because a culture of debate is to be preferred to silence as it is a national asset. Indeed, it is the duty of the ruling elite within the state sphere to distil the feedback from the citizenry and turn it into an outcome that is healthy for the polity.

The West African Examinations Council (1952-2002) Francis Agbodeka 2002 Gle, a chief priest, abandons his role as custodian and defender of age-old customs to fight voluntarily on the side of the British in the Second World War. When the war ends, Gle and his fellow African soldiers do not receive their promised rewards. But they do not return peacefully to their homesteads or reassume their traditional values. Politicised by their role in the foreign conflicts they join together and march in protest to present a petition to the Governor of the Gold Coast (now Ghana), in an act of self-determination. The colonial forces respond with fire; soldiers are shot dead. The angry protesters descend into Accra and loot the shops, in what became the famous looting of 28 February 1948, and would mark the beginning of Ghana's fight for independence from Britain.

Breaking The Chains Of Darkness Tella Olayeri 2021-10-06 Life is a series of peaks and valleys. Sometimes you are up, sometimes you are down. Situations are not permanent! It is in the difficult times we face reality of life either to sink or flow. Battle of life is not fun fare, it is warfare. You don't wait for your destiny to be delivered to you. You must wrestle your destiny out of the hands of the enemy. Chain of darkness gradually kills destiny and reduce you to a pauper. You must therefore, come to the point of desperation where a change must occur. Your destiny is not just glorious, it is precious. This is what enemies know that make them attack you and put you in chain. Today the chain is broken! Chains of darkness must be broken. Sometimes life seems like too hot to handle, jobs are lost, relationships break, people die, financial troubles loom, famines are experienced, poverty and stagnancy are recorded, bad health take over homes, bareness affects homes, while spirit of backwardness take tolls of lives. Witchcraft chains that scatter hope bind souls to one spot. The evil chain behind it is what this book is all about. No one is free from satanic opposition. God created us for glory, but Satan marks us for destruction. You must be violent in prayer, before you can achieve great things of life. There is no free lunch anywhere. You must wrestle for freedom. Something has to be done to turn your captivity around. Every oppression has an end. This is the reason this book is written. To break every manner of chain enemy used to captivate destiny. It is fatal to be in chain. Enemies are cruel. They want you to be in chain till eternity. It is you that must be violent against their decision to keep you stagnant and be a failure. There is no man that is free from this battle. There is no one that is not being attacked by the enemy. You are not free neither from evil chain. Every chain of darkness designed for you shall break to pieces by fire! This book teaches you how to pray. Nobody can pray for you like yourself. Every man shall bear his burden. This book is loaded with violent prayers to achieve the following: Every chain of darkness against your success shall break. Powers of darkness shall bow and back out. You shall be a prayer War Lord that destroys works of darkness. Your foundation shall be healed and experience breakthrough. Blood of Jesus shall cancel every mark of darkness in your life. Deep problems are solved, yokes are broken. The light of God shall shine upon you. Every closed door against your success shall break open. Mountains are leveled, barriers broken. You shall experience sudden deliverance from the hands of darkness. Every manner of frustration and confusion shall expire. At last, you shall dance your dance and sing songs of praises to the Lord.

WAEC in Review Benjamin Freeman Jr. 2014-11-07 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian

students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army—Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia Nigerian Educational Digest 2007

Doubtful Minds, Arise!! Mawuli Dzitse 2020-05-25 ?Have you paused for a second to consider the power behind the great innovations we see around us these days: the internet, computers, aeroplanes, cell phone technology, drone photography, multimedia stuff, LED ads, etc.? What do all these inventions have in common? Well, these are all products of the human mind. The creator of the universe endowed humans with an exceptional gift which, when well-harnessed, enables us to think and solve problems. How well we use this gift of the mind is the subject matter of this book written by Mawuli Dzitse. In relatively few pages, the author establishes the important role the mind plays in our lives. Any manipulation of the mind has a telling effect on who we are and what we become. The mind is like an independent variable; the state of the dependent variable revolves around it. So what happens when the mind is in a doubtful state? A doubtful mind does not necessarily have to result in negative developments. In fact, doubt generates creativity. When used in moderation, doubt can be a welcoming asset in the society. It is a mover for social change. Nevertheless, doubt can be pathological if it is not managed properly. It is the prevention of negative aspects of doubt that the author focuses in this book. The underlying tone of the book posits that every human being has the capacity to use their mind to produce outcomes that can improve the quality of life than the one they came to meet. Mawuli provides answers to questions aimed at enhancing individual outlook on life as well as strategies for making the mind clean, healthy and functional. In other words, how individuals should nurse and nurture their mind food, which he identifies as information and messages. He advises readers to avoid activities that can kill dreams. The book is spiced with biblical quotations to lubricate the mind and provide spiritual wisdom to the reader. In addition, the author provides practical exercises in “Self Post-Reading Discernment” sections that allow the reader to have hands on training and the feel of what is being advocated.
